Objective

To begin my career in a reputable organization where I can apply my computer science knowledge, develop technical skills, and contribute effectively to organizational success.

Education

- **Sri Vasavi Engineering College** 2024-2028
  B.Tech (Computer science and engineering)
  9.35/10
- **Sasi Junior College** 2022-2024
  Intermediate (12th)
  943/1000
- **Sasi English Medium School** 2021-2022
  SSC (10th)
  566/600

Skills

- Programming: C , Java , Python
- Web Technologies: HTML , CSS , JavaScript
- Database : SQL
- Soft Skills : Strong Work Ethic , Self-Motivation , Time Management

Projects

- **Lost and Found Management System**
  Developed a web-based platform to report and search for lost and found items, helping users reconnect with their belongings efficiently.
  Technologies: HTML, CSS, JavaScript, Database.
- **Blood Bank Locator System**
  A web-based application that helps users find nearby blood banks and available blood donors during emergencies. The system includes donor registration, blood bank locator, and search features to identify donors based on location and blood group, improving quick access to blood resources.
- **Password Generator System**
  A Password Generator System developed using Python that generates strong and secure passwords using a combination of letters, numbers, and special characters. The system allows users to choose the password length and creates random passwords using Python's random module, helping improve password security.
